Tom Hannigan, Director
Water Resources
1416 Ninth Street
Sacramento, CA 95814

Dear Mr. Hannigan:

We urge you to chart a smarter course in the conservation of California's water resources by supporting the CALFED Bay/Delta program.

We ask that you consider the following:

- o CALFED Bay/Delta invests in water efficiency for at least seven years before even considering new dams or reservoirs.
- o CALFED Bay/Delta restores our rivers, bays and fisheries by providing adequate fresh water and caring for the land around our rivers.
- o CALFED Bay/Delta improves water quality for people and wildlife by enforcing pollution limits.
- o CALFED Bay/Delta stops making taxpayers pick up the tab for studies of new dams and reservoirs that flood valuable habitat and remove needed water from our rivers.

Sincerely,

Larry and Joyce Henderson
