Water Resources Director Tom Hannigan
1416 Ninth Street
Sacramento, CA 95814

Water Resources Director Hannigan:

I am writing to urge you to support the CALFED Bay/Delta program. I support this program because

- It keeps an adequate flow of fresh water to ensure the health of the San Francisco and San Pablo Bays, surrounding wetlands, and upstream fisheries.
- It enforces water pollution limits.
- It reduces the need for new dams and reservoirs by making our use of water more efficient.

I am not willing to pay for new dams and reservoirs that damage the environment and benefit only agribusiness interests. Thanks for supporting the CALFED Bay/Delta program.
