

T. Hennigan

June 18, 1999

Governor Gray Davis
State Capitol
Sacramento, CA 95814

Dear Governor Davis:

Please do everything within your power to protect the rivers, bays and drinking water in our great state! We owe this legacy to future generations! (Our own daughter is 16 months old and we want her great great great great grandchildren to be able to enjoy clean and healthy water many years from now!!!

Please work to ensure that the CALFED program does the following:

- 1) Invests in water efficiency for at least seven years before even considering any new dams or reservoirs.
- 2) Restores our rivers, bays and fisheries by providing adequate fresh water and by caring for the land around our rivers. (i.e. no grazing, logging or pesticide use near streams and rivers).
- 3) Improves water quality for people and wildlife by enforcing pollution limits and controls.
- 4) Stops making taxpayers pay for studies of new dams and reservoirs that flood valuable habitat and remove needed water from our rivers.

We voted for you in 1998 and are very happy with your policies at this point in your administration. Please continue to show your concern for OUR ENVIRONMENT and we will in turn support you (and fellow conservation-minded candidates) in future elections!

Please respond to us at your earliest convenience and let us know what action you are pursuing regarding the CALFED draft.

Sincerely,

Brian, Lina and Christine Campopiano

CC: Water Resources Director Tom Hannigan

Mr. Hennigan -
Please do the right
thing for the people
of California and
future generations!
We are counting on
you!
Brian
