Olene, I think I sent these to you already,

but would you double check?

Thanks Wendy

I'm not sure who has the best connections to try to get language to the ROD
 drafting folks, so I'm trying the shotgun approach. Attached are proposed
 clarifications to three areas: Groundwater Storage, Water use Efficiency

and

Conservation, and Conveyance/Water Quality Exchanges. They are in three
 separate files because I sent them to separate places for review.

Each proposed change is accompanied by an explanation of the need for the
 clarification. The explanations in each file do not indicate who is
 proposing the changes, but for your information they represent the views of
 Madera ID (all thee), the Ag Caucus (Groundwater Storage & Water Use
