

June 16, 1999

Governor Gray Davis
State Capital
Sacramento, CA 95814

Dear Governor Davis:

It is very important that you protect California's rivers, bays and drinking water for the present and future generations to come. I am strongly encouraging you to ensure the CALFED program which:

Invest in water efficiency for at least seven years before even considering new dams or reservoirs;

Restores our rivers, bay and fisheries by providing adequate fresh water and caring for the land around our rivers;

Improves water quality for people and wildlife by enforcing pollution limits;

Stops making taxpayers pick up the tab for studies of new dams and reservoirs that flood valuable habitat and remove needed water from our rivers.

Please, please take care of California's natural resources – all of them.

Sincerely,

Holly McKnight
