Sir,

I am asking you to chart a smarter course for California through the "CALFED Bay/Delta" program. I urge you to ensure that the CALFED program does the following:

Invests in water efficiency;

Restores our rivers, bays, and fisheries by providing adequate fresh water and caring for the land around the rivers;

Improves water quality for people and wildlife by enforcing pollution limits; and finally

stops making taxpayers pick up the tab for studies of new dams and reservoirs that flood valuable habitat and remove needed water from our rivers.

Respectfully,

Karin Steele
