

Governor Gray Davis
State Capital
Sacramento, Ca. 95814

Dear Governor Davis:

This letter is about protecting the rivers, bays and drinking water.

We urge you to ensure the CALFED program:

- 1) **invests in water efficiency** before considering new dams or reservoirs.
- 2) **restores our rivers, bays and fisheries** by providing fresh water and caring for the land around rivers.
- 3) **improves water quality for people and wildlife** by enforcing pollution regulations and limits.
- 4) **stop making taxpayers pick up the tab** for studies of dams and reservoirs that flood habitat and remove water from our rivers.

Thank you for your consideration in these matters.
Please let us know what actions you, or your delegates, will be taken.
