Dear Govenor Davis:

I hope you will you will actively
support the
"CALFED Bay/Delta program.

I am concerned about the reckless use of
natural resources. They are not
inexhaustable. The thoughtless building
of massive new water projects is not the
answer. The only winners in the short
term would be developers and
agribusiness. In the long term it will
be a disaster for everyone including
them.

A reasonable project is the CALFED
program.

Thank you for your efforts.
