Governor Gray Davis
State Capitol
Sacramento, CA 95814

Copy to:
Water Resources Director Tom Hannigan

Subject: Water Resources

Dear Governor Davis:

Please plan an intelligent course for the state's water resources.
Consider the "CALFED Bay/Delta" program.

Objectives include:

Improving water quality by enforcing pollution limits

Investing in water efficiency before considering new dams

Restoring rivers, bays, and fisheries by providing adequate fresh
water and caring for the land around our rivers.

Very truly yours

McLane Downing
