

T Hannigan

Governor Gray Davis  
State Capitol  
Sacramento, CA 95814

Dear Governor Davis:

I am very interested in the new CALFED Bay/Delta document and am writing to ask you to lend your support to this new program which can chart for our state a new course in the use of our most precious water resources.

The proposed program will:

1. Restore and protect our rivers and bays, our watersheds and fisheries, by providing adequate fresh water.
2. Improve the water quality for people and wildlife.
3. Invest in water conservation to make communities self-reliant so that new dams and reservoirs need not be even considered for a number of years.

Every citizen of our state will benefit by the new course of action for water resources proposed in the CALFED Bay/Delta program. I urge you to support this proposal which will ensure high quality water and restored rivers and bays for California's people and wildlife.

Sincerely,

Dorothy Annesser
