Governor Gray Davis
State Capitol
Sacramento CA 95814

Dear Governor Davis:-

We are writing to you with the earnest hope that you, in your infinite wisdom and foresight, will support the CALFED Bay/Delta program. All citizens of California deserve to have a program that does so many things, especially in that it restores our fisheries, rivers and bays by providing adequate fresh water and improves water quality for wildlife and people by enforcing pollution limits.

As caring citizens of California, we are sick and tired of picking up the tab for studies of new dams and reservoirs that flood valuable habitat and remove needed water from our rivers.

Thank you so much for supporting this program. The State of California deserves no less than a Governor and other elected officials who care about the State and its precious water supply...not just for now, but for future generations.
