Re: CALFED Bay/Delta

Dear Governor Davis:

I urge you to support the CALFED Bay/Delta Program to protect California water resources for the next 50 years. I have been a long time member of the Sierra Club and am actively involved in Sustainable Communities Programs. I have also volunteered on the Environmental Task Force for the Strategic Plan for the City of Long Beach. Clean water and water conservation must be a top priority in order to accommodate the massive growth California is receiving. Short term projects will not solve the problem, and, in all likelihood, will increase problems substantially. Thank you for your attention to this matter.

Very truly yours,

Carol A. Churchill
