September 25, 1995

Mr. Lester A. Snow
Executive Director
CALFED Bay-Delta Program
1416 Ninth Street, Suite 1155
Sacramento, CA 95814

SEP 28 1995

Dear Lester:

While recently preparing the Minutes of the Association's minutes of its July 14 meeting which you attended it occurred to me that I had never thanked you for your presentation. Trusting in the old saw "that it is better late than never" I do that now.

Your presentation was very comprehensive and lucid and the Mountain County membership benefitted from it. We appreciated you traveling to Sonora to enlighten us about the CALFED Program.

Unfortunately, since that time the Association itself has not been an active participant in your processes, although I think some of our members have been, such as the Nevada Irrigation District. This is a part-time position for me and I cannot give all these complicated and technical issues the time they require. However, I do appreciate receiving your notices and other mailings and hope that the Association will provide input at some point. For your general information I am enclosing a brief statement recently submitted to the SWRCB on behalf of the Association.

Thank you again for your time and information.

Sincerely, ~

Christopher D. Williams
Executive Director
