AUG 20 1996

Lester Snow
Executive Director
CALFED Bay-Delta Program
1416 9th Street, Suite 1155
Sacramento, CA 95814

Dear Lester:

Thank you for taking the time to meet with the various representatives of the striped bass community on August 7 in Vacaville.

I want to emphasize the critical importance of flow management to the striped bass, as we discussed in the meeting. As you know, it is imperative that adequate flows be available to the striped bass in the spring and summer. As stakeholders in the Bay-Delta program, our organizations and their members will support the program only if it includes this critical element.

We look forward to working together with you in making the Bay-Delta program a success.

Sincerely,

Alan J. Wilhelmy
California Striped Bass Association
CalFed Representative
