Lester Snow, Director
CALFED
1416 Ninth Street, Suite 1155
Sacramento, CA 95814

Dear Director Snow: *Lester*

I want to thank both you and your staff for attending the June 29th Senate Select Committee on CALFED hearing. I appreciate the willingness of you and your staff to answer the many questions posed by our committee members. During the hearing, several items of information were requested by the committee and the following represents the summary of each request:

- 1) A list including detailed description of all projects related to the ERPP and under the Ecosystem Roundtable for review and funding. This information must include the information involving the:
 - A) Location of the project
 - B) Acreage of the project
 - C) Cost of acquisition or restoration (a previous request soliciting similar information resulted in my office receiving a map with dots indicating the names of the projects and approximate locations, however, there was no detailed information regarding the items requested above, therefore, please provide accurate and detailed information);

- 2) As the agency tasked with the coordination of the affiliated state and federal agencies supporting the CALFED mission, a detailed listing of all habitat restoration, aquisition, and species improvement projects undertaken by agencies participating in CALFED, e.g. BOR, DWR, California Department of Fish and Game, etc.;

- 3) Specific information identifying the exact location and acreage of all public property CALFED has identified and intends to use to comply with the ERPP goals; and
- 4) Verify that the Senate Select Committee on CALFED is on all your mailing lists.

In addition, I would like to reiterate, it is of utmost importance that all information relating to CALFED and projects undertaken by CALFED's member agencies be forwarded to this committee in an expeditious manner.

I await your prompt response to the above requested information and thank you in advance for your cooperation in helping the committee perform its function.

Sincerely,

K. MAURICE JOHANNESSEN
