SAVE THE BAY / DELTA!!

ACTION ALERT

A state and federal organization called CALFED is putting together a plan to solve the problem of our ailing Bay / Delta. So far all the solutions presented include building more dams and canals, which is what got us into this situation in the first place. The only real solution is WATER CONSERVATION, which would heal the Bay-Delta and represents the only viable long-term solution. Please write the letter!!

Conservation is the real solution to our Bay Delta problems.

Please implement measures which do not include more canals, storage reservoirs, dredging or water diversion.

Instead stop making taxpayers foot so much of the water bill for large corporate farms. I support a solution that promotes water saving programs on our farms and in cities. The only sustainable way to replenish the Bay and Delta is to use less water!

Sincerely,

your name

*Glenn
Casswell*
