*"The Planning and Conservation League  
has been instrumental in the passage of  
every major piece of environmental  
legislation in California."*

— resolution of the California Legislature

## FOUNDERS

Bill Evers  
Helen Reynolds

PCL, founded in 1965, has played a key role in the passage of the California Environmental Quality Act, the State Wild and Scenic Rivers Act, the California Endangered Species Act, the Coastal Protection Act, the Integrated Waste Management Act, and many other laws devoted to protecting the environment of California. PCL believes that carefully planned decisions about the use of California's resource base will result in a sustainable economy and a vital natural environment.

The following members of PCL have joined to support our goals but do not necessarily concur in every PCL legislative action.
