

CALFED Programmatic Environmental Impact Statement

Agency Review Meeting - Specific Comments

10 February 1998

H-000734.001

| No | Page No | Para/ Line | Agency | Comment |
|----|---------|------------------------|--------|---|
| 1 | 5-1 | right col, bottom para | DFG | is it possible to identify temporary disturbances? Add estimation - perhaps additional 10%. |
| 2 | 5 | | DFG | rename chapter, by adding "Land Requirement Assumptions"; move section 5.2 to end of chapter and expand with Rick's text. Add text boxes to chapters 6,7,8 referring reader back to the assumptions in chapter 5. |
| 3 | 5 | 5.2 | CDFA | reorder discussion to follow same order as in chapter 1 (ERP, etc) |
| 4 | | 5.3 | EPA | Need to add systemwide context (discussed by region but identify systemwide context) |
| 5 | 5-5 | | CDFA | add sentence clarifying that willing sellers/buyers has not influenced impact analysis (see Rick's text). Intent to strive to accomplish all land needs using willing seller willing buyer. If land needs aren't met through that option, other options will be considered. |
