

From Greg Gartrell  
Contra Costa Water District.

Page 6, footnote 6. CCWD does not have pre-1914 water rights. Suggest a correction to the footnote to say that "CCWD does have appropriative rights that are senior to CVP and SWP water rights, as well as a CVP water supply contract. CCWD is largely within the statutory limits of the Delta, and the remainder of CCWD is immediately adjacent to the statutory Delta."

Page 7. Lines 24. Change "Contra Costa County Water Agency" to "Contra Costa Water District". Additional water supply organizations with water rights that are senior to the SWP and CVP include the City of Antioch and various industrial corporations along the San Joaquin River and Sacramento River in Contra Costa County. Line 27: change "extensive CVP contracts" to "CVP contract".

P. 10 Line 9. SWP contractors receive water both from reservoirs and flows entering the Delta (i.e., it is not all from stored water).

Greg
