

SEP 09 1999 1378

Mr. Lester Snow, Executive Director
CALFED Bay-Delta Program
1416 Ninth Street, Suite 1155
Sacramento, CA 95814

Dear Sir,
I was sent this misguided attempt to manipulate me but I disagree completely with Mark Bergstrom and his mass mailing under the name California Trust. Contrary to his views, I believe that California needs more water storage, dams. Also, I favor lower costs for water for agriculture, as long as it doesn't result in...

~~Your agency's bias towards further dam construction poses a grave peril to California's wild fish, including its native salmon, trout and steelhead.~~

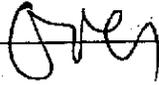

~~While we all understand that human needs must be balanced with the needs of animals, there is no balance in destroying California's rivers and streams for the benefit of agribusiness giants.~~

~~The millions of Californians who enjoy, and depend on, California's outdoors don't need more dams — they need better water conservation and management.~~

~~I urge you to use the forces of the free market to encourage the development of new efficiencies. This will save California's wilderness, boost conservation, and benefit everyone in the long run. Please write me back to let me know where you stand on this important issue.~~

Very truly yours,

I do not want to see millionaires made by investing in our natural resource: water. This natural resource belongs to all the people of California. Please do not let power-hungry, greedy assholes control the ~~passage~~ water supply for their selfish interests. We, the people, need affordable water in good, consistent supply. Agriculture needs " " " " " " " because they produce " food " " " " " .

Water + food = life for people

Please remember this basic fact. Do your part for people!
Thank you for considering water storage in new dams.

Sincerely, Gary King
